Что необходимо для проверки домашки
1) понимание основ Java
2) просмотреть лекцию и воркшоп

Ожидаемый текст программы

```java
import java.util.Arrays;

public class WorkShop {

    public static void main(String[] args) {
        Friend[] friends = {
                new Friend("Вася", Integer.parseInt("18"), true, 10),
                new Friend("Катя", Integer.parseInt("19"), true, 1),
                new Friend("Дима", Integer.parseInt("20"), true, 23),
                new Friend("Саша", Integer.parseInt("20"), false, 12),
                new Friend("Мария", Integer.parseInt("20"), false, 5)
        };

        System.out.println("My friends: " + Arrays.toString(friends));
    }
}

class Friend {

    private String name;
    private int age;
    boolean isFriendFromSchool;
    float hoursSpentTogetherLastWeek;

    public Friend(String name,
                  int age,
                  boolean isFriendFromSchool,
                  float hoursSpentTogetherLastWeek) {

        this.name = name;
        this.age = age;
        this.isFriendFromSchool = isFriendFromSchool;
        this.hoursSpentTogetherLastWeek = hoursSpentTogetherLastWeek;
    }

    @Override
    public String toString() {
        return "Friend{" +
                "name='" + name + '\'' +
                ", age=" + age +
                ", isFriendFromSchool=" + isFriendFromSchool +
                ", hoursSpentTogetherLastWeek=" + hoursSpentTogetherLastWeek +
                '}';
    }
}
```
